

# Clean energy on your roof!

*Photovoltaic plants on roofs,  
for newly built or existing roofs*

# A plant at no cost thanks to incentives

## The investment that repays you

*A profitable plant  
for your business and image*

- ✓ **Turnkey realization** and delivery of photovoltaic plant on your roof
- ✓ **Energy savings** on your bill and reduction of CO2 emissions
- ✓ **Safe and guaranteed financial comebacks** for 20 years thanks to incentives or paid rent
- ✓ **More resistant and protected roofs** from direct UV rays and bad weather. Less maintenance over time and more hot-cold insulation resulting in additional savings for heating and cooling consumption
- ✓ **Value of property** in view of the upcoming mandatory certifications
- ✓ **All Inclusive solution:** we take care of every documentation with GSE agency, Banks and Public Authorities
- ✓ **Chance to deduct works** on Concession value and chance to **remove asbestos** and carry out work on the structure if necessary

# Choose the perfect solution for you

## ✓ YOUR PLANT AND YOUR INCENTIVES

- We built your plant and you receive benefits thanks to the incentive rate on the Energy Bill
- You will use clean energy produced by your plant

## ✓ PLANT ON LOAN

- You give us the right to surface on your roof, we built the plant and we will pay you an annual amount ensured by bank guarantee or the whole sum in one rate (you immediately receive money for loaning your roof)
- You will reclaim the property of the plant after 20 years and you will forever use clean electric energy

## ✓ NO CHARGES FOR YOUR PLANT

- You provide us with your roof and we build your plant with no charges, taking advantage of the incentive rate of the Energy Bill
- You will directly use clean energy produced by your plant

*Gruppo Vona designs and builds innovative plants  
in stock for the production of solar energy.*

*In addition to the already installed 150 MW  
and the construction of the largest ground  
photovoltaic park in Europe.*
